Yes.

I will try to get in touch with him later today.

Bryant

Bryant:

Any chance that you could follow up with Mr. Kirby and check the status of him completing Tank 16 and applying the coating and addressing cathodic protection or compliance with the order?

Thanks

Gary - My last correspondence with Mr. Kirby was about a year ago. At that time he had already received approval to use Tank 15, and we gave him approval for Tank 13. Both tanks and their containment had met the requirements and were certified "Fit for Service" by a PE. During my last conversation with Kirby, he indicated he would soon start on Tank 16 and once it was "Fit for Service" he would have all three painted and cathodic protection replaced!

9567598

If he is not going to finish the third tank, we should probably start putting some pressure on him to finish the coating & cathodic protection.

Respectfully,

Bryant Smalley

Chris/Bryant:

Thanks for the copy of the order. Do we know the current status of compliance with this order as it relates to each tank, secondary containment, and cathodic protection?
